

Congratulations on the purchase of your new home! The GHO Homes team welcomes you to our family of happy homeowners!

As the Design Studio team, we will work together with you to ensure that your home is everything you envisioned it would be, from functional space to specialty finishes. We welcome you to check out our Virtual Design Meeting website. With this online tool, you will have the opportunity to view product options, informational videos, use our room visualizer and experiment with our color bar and TRU-COLOR matching system to find the perfect finishes for your home.

Our Design Studio is conveniently located off I-95 on Route 60 in The Vero Oaks Plaza in Vero Beach, FL. The recently expanded GHO Homes Design Studio showcases your available options under one roof. This beautiful state of the art facility, with over 3,700 square feet, boasts kitchen and bath vignettes featuring today's modern conveniences and styles, various floor tiles including wood tile planks, an exterior finish gallery complete with roofing options, entry doors, and pavers, as well as many other decorative features that you can use to design your home. This environment provides the homeowner with a hands on experience like no other.

Your home is a representation of you and we are here to help achieve the look and feel you desire. We look forward to working with you!

The Design Studio Team,
Nancy Villafane
Jessica Patterson
Mic McNally
